Dear Parent/Carer

Maths Holiday Revision Pack

This letter is intended to provide you with some additional information about the maths revision pack your child should have brought home from school this week. The pack comprises practice exam papers that will support them in preparation for their maths exam.

We would like your child to spend at least two hours before or during the holidays completing the holiday revision questions, this should be entirely their own effort. Once they are happy they have answered the questions to the best of their ability they should then use the worked solutions to go through and assess their answers. It would be useful to do this using a different coloured pen so the information stands out. If you are able to help your child with this process that would be great.

After they have assessed their answers it would be really useful to look at the questions where marks have been lost and, by using Hegarty Maths, to look at ways to improve their answers. In doing so they will further develop their knowledge and understanding.

This exercise is really important and will help give your child a valuable understanding of the exams that are to come. If your child does not complete the questions during the holidays they will be asked to remain behind at school for a session to do so. Students should hand the revision packs to their maths teacher on Wednesday 26th February 2020.

Lastly, please continue to remind your child of their weekly maths task on Hegarty Maths which is due in every Wednesday.

Thank you for your support in this matter.

Yours faithfully

Miss R Sullivan
Head of Maths

Miss L McGrother
Associate Director of Maths
