

COVID-19: Operational risk assessment for school reopening

Please note: this risk assessment should be undertaken in conjunction with the guidance on school reopening issued by the Department for Education on 2 July 2020 as follows:

[Guidance for full opening - schools - GOV.UK](#)

This recognises that the youngest children in schools cannot socially distance from adults or each other. The implementation of ‘bubbles’ are an alternative protective measure to keeping people apart. Therefore, ‘social distancing’ in this risk assessment refers to the use of bubbles and/or the requirement to keep to 1 or 2 metre distances, depending on the age of the children concerned.

Based on SAGE modelling, the hierarchy of controls we have factored into our planning to help prevent the spread of COVID-19 are set out below:

System of controls

This is the set of actions schools **must** take. They are grouped into ‘prevention’ and ‘response to any infection’ and are outlined in more detail in the sections below.

Prevention:

1. minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school
2. clean hands more often than usual
3. ensure good respiratory hygiene by promoting the ‘catch it, bin it, kill it’ approach
4. introduce enhanced cleaning, including cleaning frequently touched surfaces often using standard products, such as detergents and bleach
5. minimise contact and maintain social distance
6. where necessary, wear appropriate personal protective equipment (PPE)

Numbers 1 - 4 must be in place in all schools, all the time.

Number 5 requires an assessment of how to maximise social distancing and minimise contact within the school.

Number 6 applies in specific circumstances.

Response to any infection:

7. engage with the NHS Test and Trace process
8. manage confirmed cases of coronavirus (COVID-19) amongst the school community
9. contain any outbreak by following local health protection team advice

Numbers 7 – 9 must be followed in every case where they are relevant.

1.5 Planning movement around the school					
Movement around the school risks social distancing not being maintained	H	<ul style="list-style-type: none"> Circulation plans have been reviewed and revised. One-way systems are in place where possible. Posters in corridors regarding social distancing. Appropriate signage is in place to clarify circulation routes. Pinch points and bottlenecks are identified, staffed and managed accordingly. Movement of pupils around school is minimised as much as possible, with pupils staying in classrooms and staff moving round. Lesson change overs are organised to avoid overcrowding. Pupils are regularly briefed regarding observing social distancing guidance. Spaced lines on main corridors. Appropriate duty rota and levels of supervision are in place. Risk assessment in place for children who require support under EHCP where social distancing cannot be implemented e.g. TA pushing wheelchair Play areas will be divided if more than one bubble is to use it at the same time 	Yes	<p>The academy routes have been carefully planned and all pinch points considered. Lesson TT considered to avoid multiple change over.</p> <p>Duty rota considered for Learning Managers and SLT.</p> <p>Increased need for duty for all staff, refreshments to be provided</p> <p>Separate RA for the one student who requires physical support and the associated HCA to be completed and the designated understudy.
