

Self-isolation guidance

Confirmed case

(received a positive test result)

AFFECTED PERSON	SELF-ISOLATION GUIDANCE
INDIVIDUAL (the confirmed case)	Must self-isolate for 10 days from the onset of symptoms and until the individual's high temperature has fallen within normal range.
INDIVIDUAL'S HOUSEHOLD (the people who live with the confirmed case)	Must self-isolate for 14 days from the onset of the confirmed case's symptoms or from the positive test result (if the individual is asymptomatic). If any member of the household develops symptoms at any point during the 14 days, they must self-isolate for 10 days from the onset of their symptoms and get tested.
CONTACTS (the people who have... <ul style="list-style-type: none">• been within 2 metres for more than 15 minutes; or• had face-to-face contact within 1 metre for any length of time; or• been within 1 metre for more than 1 minute• Shared a small vehicle ...with the confirmed case anytime from 2 days (48 hours) before the onset of symptoms))	Must self-isolate for 14 days from the last contact with the confirmed case . If they develop symptoms during the 14 days, they must self-isolate for 10 days from the onset of their symptoms and get tested.
CONTACTS' HOUSEHOLDS (the people who live with a person who has been identified as being in contact with a confirmed case)	Do not need to self-isolate unless the Contact develops symptoms.
